Continuous Hiking Noodles measurement form

Name _____ Telephone _____

Address _____ Email _____

_____

_____

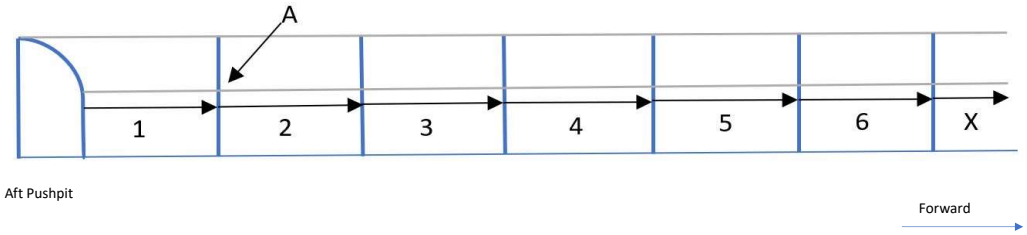
_____

_____

Boat Type _____ Total number of

Boat Name _____ stanchions in noodles _____

Location _____ Colour _____



Please see the necessary measurements below - the diagram above should help. Please measure both Port and Stbd for each, we will calculate the averages to accommodate any variation.
If you need to add more details (more stanchions etc) please use a second sheet of paper.

	Port	Stbd
A. Diameter of stanchions in millimetres at lower guardwire		
B. Location of side boarding gate (if applicable) - after stanchion number: _____		
C. Width of boarding gate lower lifeline - only if being covered with hiking noodle		
D. Distance from forward boarding gate to stanchion number: _____		
1. Distance in millimetres from pushpit to 1st stanchion		
2. Distance between 1st and 2nd stanchion		
3. Distance between 2nd and 3rd stanchion		
4. Distance between 3rd and 4th stanchion		
5. Distance between 4th and 5th stanchion		
6. Distance between 5th and 6th stanchion		
7. Distance between 6th and 7th stanchion		
8. Distance between 7th and 8th stanchion		
X. Distance from last stanchion to end of noodle (if applicable)
